

## *Assignment 1* *Review Revisions*

### **Parametric Modeling and Drawing**

September 26 2005

#### **Project Presentation**

Many helpful comments were exchanged today between our reviewers and classmates. For next Mondays class please develop the following:

- Email a clear list of review comments to members of your team
- Revise the 3D model to match reviewer's comments-Only make conceptual changes do not worry about tons of detail. For example, if you are dealing with a panel make sure that is clear.
- a) Render with color the 3D section model in 3D studio and print on large plotter
- b) 2D drawing should be revised (cleaned up) based on comments and print on large plotter
- c) Create a PDF of the Renderings, 2D drawings and comments into one MS Word Document.

Please make sure to include your groups names (Only one person on each team needs to submit)
