

## **Energy, Environment & Society**

### **Reflection Paper #3**

This reflection paper is a group project designed to help you make progress on your final report. As a group discuss and answer to the best of your ability given the knowledge you currently have the following questions:

1. Who your client is and what client questions are you addressing?
2. What is your methodology for analyzing the project?
3. What are your findings?
4. What are your recommendations?
5. In the following outline what will your main points be in each report section?

Outline:

1. Project rationale
2. Methodology
  - a. Data collection
  - b. Analysis
3. Results
4. Interpretation of results
5. Recommendations

We would expect the assignment should be at least 4 pages long and can include bullet points.
