On V-to-I and on double objects

[Answers should not exceed a total length of 2 pages]

- Discuss problems and refinements, if any, that the data in (1) may induce for Bobaljik's account of (the parameterization of) "V-to-I" movement.

(1) *The District Attorney proved the defendants to be guilty on each other's trials*

- Discuss problems and refinements, if any, that the data in (2) may induce for Larson's analysis of double-objects.

(2) *John wanted to give books to his kids, and give books to them he did on each other's birthdays*
